A Core Inventory for General English
Brian North, Angeles Ortega and Susan Sheehan

Foreword

The embedding of the CEFR in English Language Teaching has been a long process but we have now reached a stage where the CEFR levels and the competences are a core component of teacher training and of daily teacher practice.

As a global organisation we at the British Council appreciate the significance of the CEFR. Our websites and teacher resources are global and need the structure and definition provided by the CEFR to make our work more coherent.

The British Council is committed to supporting teachers of English worldwide and providing them with training and resources.

Applying, and where needed adapting, the CEFR to their own teaching approach is an important competence for teachers, and for many teachers extra training, resources and support are needed to make this successful.

This project aims to be one of those resources – providing support to teachers in applying the CEFR to their daily work, by providing a practical inventory of language points that should be a part of a balanced course at each level of the CEFR.

Our goal is to provide direction for teachers in how to select inventory items and plan lessons that will help students gain the competences they need within CEFR.

This project started many years ago as a modest attempt to pull together a core list of discrete language points and key lexis for each level of the CEFR. I set it up as a database of language points and exponents somewhat loosely tied to CEFR levels, as a guide to coursebook contents and lesson planning. To help teachers focus on while planning lessons.

It was only partly successful as it did not benefit from the academic rigour and research background which this kind of teaching resource needs.

We decided in 2009 to revive this project with the appropriate academic input and research, and approached Brian North and EAQUALS to work together as partners in providing this much-needed (and oft-requested) resource for teachers.

Brian North has led an international team of teachers and trainers, with Susan Sheehan coordinating the British Council’s input, and the team has produced a fantastic resource that I believe will be greatly welcomed by ELT teachers everywhere.

The project resources will be made available in different formats – poster, booklet, website, ebook – so that we can reach as many teachers as possible.

We hope this is useful for your work, and would be delighted to receive feedback and suggestions for extending the project in new directions.

Michael Carrier

1 The CEFR

The CEFR was published in 2001 in English and French after a period of development from 1992 to 1996 and piloting from 1997–2000, has been translated into 40 languages and is now accepted as the international standard for language teaching and learning. The CEFR has two main aims: to encourage reflection by users over the way their current practice meets the real world language needs of their learners and to provide a set of defined common reference levels (A1-C2) as points of reference to facilitate communication and comparisons. The CEFR differs from other, national, language frameworks in two ways:

- Firstly it highlights the competences a learner needs (pragmatic, linguistic, sociolinguistic, strategic, intercultural) as a language user and it develops the familiar but inadequate four skills into a richer description of activities the learner undertakes (spoken and written: reception, interaction, production and mediation).

- Secondly it provides validated, scientifically calibrated descriptors of these different aspects of its descriptive scheme, except for intercultural competences and mediation. The most comprehensive set of CEFR-based descriptors is available at www.coe.int/portfolio. Consistent coverage for all levels in simplified “I can” form is provided by the recent EAQUALS revision, also available on www.eaquals.org. The original CEFR descriptors are presented in “I can” form in the EAQUALS/ALTE electronic European Language Portfolio on www.eELP.org.

The relevance of the CEFR to language education is firstly that the descriptive scheme offers a starting point to review curriculum content and secondly that the common reference levels provide a framework for putting curriculum objectives, entry testing, syllabus definition, materials organisation, progress testing and certification of proficiency into one coherent local system that is appropriate to the context, related to real world language ability and easily communicated, internally and externally.

The CEFR avoids using relative labels like “intermediate” because these mean very different things in different contexts; neither schools nor publishers use these terms consistently and they are also employed in different ways in different educational sectors and in relation to different languages.

The analysis in this project confirms that the relationship between the CEFR levels and the labels used by EFL publishers is approximately as follows:

<table>
<thead>
<tr>
<th>Beginners</th>
<th>A1</th>
<th>A2</th>
<th>B1</th>
<th>B2</th>
<th>C1</th>
<th>C2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proficiency</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Advanced</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Upper Inter</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Intermediate</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Pre-inter</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Elementary</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The relationship is clearest from B1 to C1. Beginners books are clearly A1. Books labelled “elementary” span the content for A1 and A2. The greatest confusion is with books labelled “pre-intermediate” since both schools and publishers use this expression in different ways. Essentially “pre-intermediate” appears to correspond most closely to the more demanding content of A2, sometimes called A2+. In the analysis in this project, beginners’ materials were analysed in relation to A1, pre-intermediate materials in relation to A2, and elementary materials in relation to both A1 and A2.

---

2 Aims of the Project

The intention of this project is to make the CEFR accessible to teachers and adult learners of General English. It is an attempt to answer the question put by many teachers over the years of what to teach at each CEFR level. It maps the communality of interpretation of the CEFR for English in terms of curriculum content for 16+. As will be explained in Section 7 the aim is not to tell teachers what to teach or to prescribe a particular teaching methodology. The main project aims are outlined below.

To make the CEFR tangible and provide support and guidance for teachers and syllabus designers
The question has often been raised as what the CEFR levels mean in terms of classroom aims. The Inventory represents the core of English language relevant at CEFR levels A1 to C1. It can thus facilitate defining objectives, writing syllabuses and planning courses.

To make the teaching/planning process more transparent
Learners can sometimes find it hard to understand the aim of a particular activity, lesson or indeed course, and its connection to real world needs. The Inventory will assist learners in the process of realising their language learning ambitions by helping them to focus on the different aspects of the language which need to be mastered for progress to be made. It also offers a structure for negotiations between teachers and learners on course content.

To provide support for self-directed study
The Inventory can be used as a guide to essential language for self-directed study. The Core Inventory has been created with teachers and learners in mind. Each language point appears at the level(s) at which it is considered of most relevance to the learner in the classroom. What we teach, what learners can do with the language, and what we test in examinations are not always identical. The Core Inventory does not aim to provide detailed guidance for course book or examination developers, for who detailed specifications already exist in the series Waystage, Threshold Level and Vantage Level, gradually being updated by the English Profile project.

3 Project Procedure

The Core Inventory was developed through iterative and collaborative processes, exploiting expertise from within the two partner organisations, including examination boards that are Associate Members of EAQUALS. The project built on existing work and projects conducted by both partners and other experts.

The project had five main stages. A series of workshops were held, in the context of an EAQUALS 'Special Interest Project' (SIP). In the workshops practitioners commented on and sense-checked the work completed so far and suggested approaches for the successive stages.

Stage 1 Data collection and analysis
A number of sources were drawn on including:
- an analysis of the language implied by CEFR descriptors;
- an analysis of content common to the syllabuses of EAQUALS members whose CEFR implementation was a point of excellence;
- an analysis of content of different series of popular course books;
- teacher surveys.

The data were analysed to find consensus: points which were common to a strong majority (80%) in each of the data sources. This defined the “core.” Other points common to different sources that were considered significant were retained as “less core;” these points are shown in italics in the lists of exponents in Appendix E.

Stage 2 Creation of the Inventory
Following the analysis of the data collected at Stage 1, examination boards (Cambridge ESOL, City & Guilds, Trinity) provided further input into which language points they considered to be most relevant. At this stage content for C1 was discussed in detail.

Stage 3 Writing the exponents
Once the Inventory was finalised, teachers wrote a preliminary version of the exponents which were refined and revised by project team members at an iterative series of workshops.

Stage 4 Identifying text types
One project member analysed the CEFR descriptors to identify source texts for different CEFR levels. The results of this analysis can be found in Appendix C.

Stage 5 Writing CEFR-based scenarios
The project team wanted to make explicit the links between real world needs, curriculum aims and the classroom. The final stage of the project was therefore to brainstorm illustrative scenarios that are archetypical of the level concerned. The concept will be explained in Section 5.

**Core Inventory**

The core inventory represents the core of English language taught at Common European Framework of Reference (CEFR) levels A1 to C1 in English. Only the features most commonly included at each level have been listed. In any particular context, teachers and syllabus writers would add other language points to this minimal core, based upon an analysis of the needs and interests of the learners concerned. Decisions on recycling of language have also been left to teachers and syllabus writers. The inventory can also be used by learners as a guide to essential language for self-directed study.

**Teaching not testing**

The core inventory has been created with teachers and learners in mind. Each language point appears at the level(s) at which it is considered of most relevance to the learner in the classroom. Language testers should note that learners are not expected to have mastery of the language points at that stage. What we teach, what learners can do with the language, and what we test in examinations are not always identical.

**Development methodology**

A number of sources were drawn on, including:
- an analysis of the language implied by CEFR descriptors
- an analysis of content common to various CEFR-based language school syllabuses and popular coursebooks for English, and
- a teacher survey.

**Status**

The inventory documents current best practice, and can be used in conjunction with databases of learner language like the forthcoming English Profile.
5 CEFR-based Scenarios

Scenarios are not a new concept in theoretical and applied linguistics, or language teaching/learning, but the word is used in many different senses. There are several points that most uses of the term in our context have in common. Firstly a scenario suggests a mental framework, a concept for how the thing in question is “done” in the relevant target language. Language users and language learners have scripts and schemata for scenarios they are familiar with. Secondly, there is a strong association with real world language use rather than exercises or pedagogic tasks, a sense that a scenario provides a meaningful context for simulated yet realistic language use by the learner. In a real-world derived scenario, simulations replace mere role-plays as we move from fictional personalities in artificial situations to real people acting as themselves in real contexts. Finally and fundamentally a scenario suggests a holistic setting that encourages the integration of different aspects of competence in real (istic) language use. Properly conceived scenarios automatically create an appropriate background to support learning and teaching where the main consideration is that of authenticity of situations, tasks, activities, texts and language data.

CEFR-based scenarios are frames that in the context of a set of defined real world variables (domain, context, tasks, types of language activity and texts involved) integrate holistically:

- “Can-Do” descriptors (as objectives);
- quality criteria (for evaluation);
- aspects of competence, from strategic, through pragmatic to linguistic (as enabling objectives).

The CEFR-based scenario concept is relevant to both teaching/learning and to assessment. The scenario template has two pages with a fixed format for page one (overview) and a variable one for page two (implementation). This is because the latter will vary substantially depending on the educational context and on whether the scenario informs a series of teaching and learning activities, perhaps concluding with an assessment, or just an assessment.

The significant point about CEFR-based scenarios is that they offer teachers and learners a way of keeping in mind both the macro vision of successful real communication and the micro focus on specific practice points. Scenarios are a tool for defining, teaching and/or assessing the competences needed to perform real world tasks. They are not necessarily an extended communicative activity in the classroom, which one works towards or back from as for example in the many variations of a task-based approach. The tasks listed at the top (after domain and context) are real life tasks, not pedagogic tasks and so they may not take place in the classroom at all. It is desirable, however, that for the sake of more effective learning real life tasks and pedagogic tasks be as closely related as possible.

An example scenario is given below; other illustrative scenarios for levels A1 to C1 are included in Appendix B.
### SCENARIO: BUSINESS MEETING

**DOMAIN**
- Occupational: Organisation - Multinational corporation
- Location: Office
- Persons: Colleagues

**CONTEXT**
- Attendance meeting
- Contributing opinion on other proposals
- Making own proposal

**ACTIVITIES**
- Listening as member of live audience
- Spoken Production
- Spoken Interaction

**TEXTS**
- Sustained monologue
- PowerPoint presentation
- Formal discussion

### COMPETENCES

#### STRATEGIC
- Intervene appropriately, using a variety of expressions to do so.
- Following up what people say, relating contribution to those of others.
- Overcome gaps in vocabulary with paraphrases and alternative expressions.
- Monitor speech to correct slips and mistakes.

#### PRAGMATIC
- Functional
- Expressing abstract ideas
- Giving precise information
- Speculating
- Developing an argument
- Justification

#### LINGUISTIC
- Grammatical
- Modals of deduction in the past
- All passive forms
- All conditionals
- Collocation of intensifiers
- Wide range of (complex) NPs

### LEVEL: B2

#### CAN-DOs*
- Follow the discussion on matters related to their field, and understand in detail the points made by the speaker.
- Contribute, account for, and sustain their opinion, evaluate alternative proposals, and make and respond to hypotheses.
- Give clear, detailed descriptions and presentations on a wide range of subjects related to their field of interest.
- Develop a clear argument, expanding and supporting their hypothesis of view at some length with subsidiary points and relevant examples.

#### CRITERIA**
- Appropriateness: Can express himself/herself appropriately in situations and avoid rash errors of formulation.
- Coherence: Can use a variety of linking words efficiently to mark clearly the relationships between ideas.
- Fluency: Can produce stretches of language of a fairly even tempo, although he/she can be hesitant as he/she searches for patterns and expressions, there are few noticeably long pauses.
- Range: Has a sufficient range of language to be able to give clear descriptions, express viewpoints and develop arguments without much conspicuous searching for words, using some complex sentence forms to do so.

### SCENARIO IMPLEMENTATION

* Taken verbatim from the Q2FR Portfolio or school’s adapted descriptors might be used.

Overview: Angeles Ortega, implementation Howard Smith
This is the rationale behind the layout. To emphasise the importance of real world orientation of the CEFR’s action-oriented approach, the top row of the scenario first page shows the real world variables: domain, context, tasks, activities and texts. The domains are those listed in the CEFR and illustrated in detail in CEFR Table 5: personal, public, occupational, educational. The contexts (CEFR 4.1.2-5) are defined in terms of the persons and places involved, thus comprising relevant features of the specific physical environment and the language users’ mental contexts and interrelationships, both of which will have an effect on the characteristics of the texts to be understood, (co-)produced and processed. The tasks are selected from the vast array of those the language user will have to tackle “in order to deal with the exigencies of the situations which arise in the various domains” (CEFR 4.3). Activities and texts are those included and described in detail in CEFR Chapter 4. Working from real world use helps to identify the relevance of all these variables to the learners in question. If there is a problem identifying a context, for example, this is an indication that the subject of the scenario may not be a real world scenario at all, but a pedagogic task or game that would not occur in reality.

The left hand column of page one of the scenarios then lists CEFR-based descriptors relevant to them: first “Can-Do” descriptors for communicative language activities (derived from CEFR Chapter 4) and then descriptors for aspects of quality (derived from CEFR Chapter 5), the latter being combined into a convenient number of criteria. The examples all show published CEFR descriptors, but these might very well be the adapted, simplified versions found in the checklists for the EQUALS/ALTE European Language Portfolio (ELP) and in school curricula elaborated from CEFR/ELP descriptors.

The right hand side of page one lists aspects of competences. CEFR-based descriptors for strategies provided in the EQUALS descriptor bank and reproduced in the appendices may be useful as a starting point, but there may well be other strategies relevant to the scenario in question. Underneath strategic competences come pragmatic (functional and discourse) and linguistic (grammatical, lexical and phonological/orthographic). Again a CEFR-based scenario developer may find the Core Inventory useful as a starting point in identifying appropriate entries here.

The CEFR-based scenarios provided in Appendix B are given purely for the purpose of illustration. An attempt has been made to provide scenarios that are felt to be in some way archetypical for the different levels in that they involve salient features of the level concerned (cf CEFR Section 3.6), that are of different types and so can provide illustrations of variations for the second page (implementation). Some of these implementations are in order of pedagogic sequence, others ordered by content, others following a real-world action sequence, still others are in the order in which they were brainstormed. The intention is to demonstrate that whilst there is a logic to standardising the form of the first page (Objectives overview) used in an educational institution, flexibility with different formats for the scenario implementation will encourage experimentation and perhaps a link to pedagogic structures that may be familiar to learners from their specific pedagogic culture or training.

The illustrative scenarios provided in Appendix B show only a few of the many variations possible. In most cases, more and/or more detailed processes, tasks and activities can be derived from those presented.

The diagram below illustrates some ways in which activities might be sequenced. The variants illustrated in the diagram do not correspond to the particular illustrative scenarios provided in Appendix B.

The number of activities in different scenarios will vary considerably depending on the orientation of the scenario and the type of tasks it implies. The diagram illustrates some possible variants. Very many others are possible. Assessment might be conducted in a single task at the end of the module, or in mini-tasks during the module. Peer and self-assessment might be employed as well as teacher assessment. There might in fact be no teaching module: the scenario may be used only as the starting point to design an assessment task.

The CEFR-based scenario concept offers a means to:
- Work top down from real world contexts to identify the competences needed to be successful in them, plus criteria to judge that success. Both the communicative language activities listed and the aspects of competence needed to be successful in them suggest classroom activities. These in turn suggest specific lessons or lesson sequences (=modules), with self-study and project tasks.
- Review existing classroom activities and resources in the light of the needs of real world activities, in a bottom-up process.
- Integrate practice activities and assessment tasks into a coherent module.
- Develop a tasks specification for a test, with the assessment procedure, assessment conditions, marking and grading procedures etc. specified on the second page.

It is a very flexible yet unifying concept that facilitates top-down planning of objectives and bottom-up linking of enabling competences to real world needs.

1 Ortega Calvo, Ángeles (2010), “¿Qué son en realidad los niveles C? Desarrollo de sus descriptores en el MCER y el PEL”, en Ortega Calvo (ed.) Niveles C. Currículos, programación, enseñanza y certificación, Madrid: IFIE - Ministerio de Educación, pp. 21-85
6 A Core Inventory: Documentation of Good Practice

The project team aimed to hold a mirror to the profession and look at how the CEFR is being integrated into classroom practice. The aim was not to tell teachers what to teach. Rather, it is to show how the CEFR can be implemented in classrooms around the world. The project draws on a collective pool of experience with the CEFR. We hope users of the Inventory will find it beneficial to reflect on their experience and their current practice.

The Core Inventory is a documentation of good practice. In the future it will be interesting to compare the Inventory with data-based research conducted with learners (e.g. in the English Profile project) and note points of similarity and contrast. Fruitful avenues of research could be opened up to investigate possible explanations or reasons for the differences. Where more contrasts may be expected between an intuition-based and data-based approach is with exponents. The exponents produced in this project are intended to be illustrative rather than exhaustive. They serve as examples to learners and teachers in the same way as course book examples do.

The methodology adopted by the project team could be considered by other institutions. This could provide interesting points of comparison with the results presented in this book. Members of the profession can assess the relevance to their own contexts.

One of the most fascinating aspects of the project was to track points of commonality across the profession. As can be seen in the tables below the relevance of a language point to different CEFR levels can be mapped. The pattern below reflects the analysis of all the data sources drawn on. Team members were genuinely surprised at the extent of agreement between the different types of sources: course books, teachers, examination boards, syllabus writers. This would seem to suggest that across the profession there is broad agreement on, for example, when different aspects of the future should be introduced into the classroom.

The lighter shading represents a lower, but still very significant, level of consensus. In Appendix E, less core points are given in italics.

7 Guidelines for Users

The Core Inventory is intended as a reference work not as a practical tool. The aim was to provide a simple overview of the apparent consensus on what constitutes the most important content for teaching and learning at each level. More detailed, comprehensive specifications are already available for levels A2 (Waystage) B1 (Threshold Level) and B2 (Vantage Level). In a few years the English Profile project will also provide a detailed analysis of learner language at the different CEFR levels, which may then stimulate a new round of reflection.

The Inventory of an overlapping consensus is, by definition, not complete. The degree of consensus is also noticeably greater at levels A1 to B2 than at C1. Indeed detailed analysis of both syllabus and course book content at C1 revealed that content was dictated to a far greater extent by context, learning purpose and the preferences of the author than was the case at lower levels. Syllabuses for C2 showed even less consensus, except as regards preparation for the CPE examination. The C levels are generally accepted to be the levels most in need of more detailed definition, and it is here that the English Profile project is focusing its efforts. The level of consensus was greatest at B1 reflecting the influence of Threshold Level, which was originally published in 1976.

A consensus core is also, by definition, inadequate to meet the needs of any particular group of learners. It may give a point of reference, but an analysis of the needs of the learners in question should give the basis for actual teaching. This needs analysis operates at two levels: at a more macro level in the definition of curriculum objectives and at a micro level in relation to needs of a particular class, both in terms of what language learners need for what they want to do, and what language they need to address significant gaps in their developing repertoires.

The message therefore is: this inventory may be a convenient tool, but it is to be used with care. Some points of good practice and tempting pitfalls to avoid are listed below:

<table>
<thead>
<tr>
<th>Do</th>
<th>Don’t</th>
</tr>
</thead>
<tbody>
<tr>
<td>Consciously identify real world learners’ needs and derive teaching content from genuine real world contexts</td>
<td>Teach obscure corners of the language just “because they are there”</td>
</tr>
<tr>
<td>Brainstorm your own CEFR-based scenarios with colleagues and students</td>
<td>Dress up pedagogic activities as real world scenarios</td>
</tr>
<tr>
<td>Supplement the points in the Inventory with things you know the learners in your context need</td>
<td>Think you only have to teach what is in the Inventory or that you must teach everything that is in the Inventory</td>
</tr>
<tr>
<td>Adapt the exponents to your own context by changing names, place names, activities etc.</td>
<td>Cut and paste lists and exponents uncritically into your syllabus</td>
</tr>
<tr>
<td>Give learners language exponents in a context whenever possible</td>
<td>Make learners learn lists of exponents</td>
</tr>
</tbody>
</table>

8 Conclusion

The Core Inventory is not seen as the definitive analysis of the needs of learners of English. It is selective, not comprehensive; it is based on experience and consensus, not data-based analysis of the language that learners actually use. Nevertheless, the British Council and EAQUALS hope that it will be of assistance in helping ELT practitioners engage with the CEFR and to adopt its “action-oriented approach” of working from an analysis of learners’ real world needs to learning-focused classroom practice.

CEFR descriptors can be used for signposting in curriculum aims, syllabuses, cross-referenced resources lists, weekly/monthly plans, classroom displays, lesson aims, evaluation checklists; report cards, personal profiles, certificates etc. Within a class, such signposting can help to set priorities, explain syllabus choice and lesson relevance, select appropriate communicative tasks and assess progress. Various forms of such signposting are common in EAQUALS member institutions and British Council teaching centres. Sometimes there is an aims box on the whiteboard for each lesson. Sometimes there are displays of the main aims of the level – as in the poster produced in this project. Sometimes there are checklists for teachers to use for planning and for continuous assessment. Sometimes there are report cards, profiles or certificates given to learners. What all approaches have in common is that the signposting provided by the descriptors allows learners to be treated as partners in the learning process. As well as defining real world outcomes, the approach can be used to give context, to show why one is learning particular language or focusing on particular aspects of language use. In this way it can help to provide a genuinely communicative, competence-focused teaching approach: an “action-oriented approach.”
Appendix A: Salient Characteristics (CEFR Section 3.6, simplified)

It cannot be overemphasized that Level C2 is not intended to imply native-speaker competence or even near native-speaker competence. Both the original research and a project using CEFR descriptors to rate mother-tongue as well as foreign language competence (North 2002: CEF Case Studies volume) showed the existence of ambilingual speakers well above the highest defined level (C2). Wilkins had identified a seventh level of “Ambilingual Proficiency” in his 1978 proposal for a European scale for unit-credit schemes. Italics in the text below represents direct citation of CEFR descriptors.

C2
Level C2, labelled, ‘Mastery’ is intended to characterise the degree of precision, appropriateness and ease with the language which typifies the speech of those who have been highly successful learners. Descriptors calibrated here include: convey finer shades of meaning precisely by using, with reasonable accuracy, a wide range of modification devices; has a good command of idiomatic expressions and colloquialisms with awareness of connotative level of meaning; backtrack and restructure around a difficulty so smoothly the interlocutor is hardly aware of it.

C1
Level C1 was labelled Effective Operational Proficiency. What seems to characterise this level is good access to a broad range of language, which allows fluent, spontaneous communication, as illustrated by the following examples: Can express him/herself fluently and spontaneously, almost effortlessly. Has a good command of a broad lexical repertoire allowing gaps to be readily overcome with circumlocutions. There is little obvious searching for expressions or avoidance strategies; only a conceptually difficult subject can hinder a natural, smooth flow of language.

The discourse skills characterising the previous band continue to be evident at Level C1, with an emphasis on more fluency, for example: select a suitable phrase from a fluent repertoire of discourse functions to preface his remarks in order to get the floor, or to gain time and keep it whilst thinking; produce clear, smoothly-flowing, well-structured speech, showing controlled use of organisational patterns, connectors and cohesive devices.

B2+
This band represents a strong Vantage performance. The focus on argument, effective social discourse and on language awareness which appears at B2 continues. However, the focus on argument and social discourse can also be interpreted as a new focus on discourse skills. This new degree of discourse competence shows itself in conversational management (co-operating strategies): give feedback on and follow up statements and inferences by other speakers and so help the development of the discussion; relate own contribution skilfully to those of other speakers. It is also apparent in relation to coherence/cohesion: use a variety of linking words efficiently to mark clearly the relationships between ideas; develop an argument systematically with appropriate highlighting of significant points, and relevant supporting detail. Finally, it is at this band that there is a concentration of items on negotiating.
B2
Descriptors calibrated at Level B2 represent quite a break with the content so far. For example at the lower end of the band there is a focus on effective argument: account for and sustain his opinions in discussion by providing relevant explanations, arguments and comments; explain a viewpoint on a topical issue giving the advantages and disadvantages of various options; develop an argument giving reasons in support of or against a particular point of view; take an active part in informal discussion in familiar contexts, commenting, putting point of view clearly, evaluating alternative proposals and making and responding to hypotheses.

Secondly, running right through the level there are two new focuses. The first is being able to more than hold your own in social discourse: e.g. understand in detail what is said to him/her in the standard spoken language even in a noisy environment; initiate discourse, take his turn when appropriate and end conversation when he/she needs to, though he/she may not always do this elegantly; interact with a degree of fluency and spontaneity that makes regular interaction with native speakers quite possible without imposing strain on either party.

The second new focus is a new degree of language awareness: correct mistakes if they have led to misunderstandings; make a note of “favourite mistakes” and consciously monitor to hypotheses.

A2
Level A2 appears to reflect the level referred to by the Waystage specification. It is at this level that the majority of descriptors stating social functions are to be found, like use simple everyday polite forms of greeting and address; greet people, ask how they are and react to news; handle very short social exchanges; ask and answer questions about what they do at work and in free time; make and respond to invitations; discuss what to do, where to go and make arrangements to meet; make and accept offers. Here too are to be found descriptors on getting out and about: the simplified cut-down version of the full set of transactional specifications in “The Threshold Level” for adults living abroad, like: make simple transactions in shops, post offices or banks; get simple information about travel; use public transport: buses, trains, and taxis, ask for basic information, ask and give directions, and buy tickets; ask for and provide everyday goods and services.

B1+
This band seems to be a strong Threshold performance. The same two main features at B1 continue to be present, with the addition of a number of descriptors which focus on the exchange of quantities of information, for example: provide concrete information required in an interview/consultation (e.g. describe symptoms to a doctor) but does so with limited precision; explain why something is a problem; summarise and give his or her opinion about a short story, article, talk, discussion interview, or documentary and answer further questions of detail; carry out a prepared interview, checking and confirming information, though he/she may occasionally has to ask for repetition if the other person’s response is rapid or extended; describe how to do something, giving detailed instructions; exchange accumulated factual information on familiar routine and non-routine matters within his field with some confidence.

B1
Level B1 reflects the Threshold Level specification and is perhaps most categorised by two features. The first feature is the ability to maintain interaction and get across what you want to, in a range of contexts, for example: generally follow the main points of extended discussion around him/her, provided speech is clearly articulated in standard dialect; express the main point he/she wants to make comprehensively; keep going comprehensively; even though pausing for grammatical and lexical planning and repair is very evident, especially in longer stretches of free production. The second feature is the ability to cope flexibly with problems in everyday life, for example cope with less routine situations on public transport; deal with most situations likely to arise when making travel arrangements through an agent or when actually travelling; enter unprepared into conversations on familiar topics.

A2+
This band represents a strong Waystage (A2+) performance. What is noticeable here is more active participation in conversation given some assistance and certain limitations, for example: understand enough to manage simple, routine exchanges without undue effort; make him/herself understood and exchange ideas and information on familiar topics in predictable everyday situations, provided the other person helps if necessary; deal with everyday situations with predictable content, though he/she will generally have to compromise the message and search for words; plus significantly more ability to sustain monologues, for example: express how he/she feels in simple terms; give an extended description of everyday aspects of his environment e.g. people, places, a job or study experience; describe past activities and personal experiences; describe habits and routines; describe plans and arrangements; explain what he/she likes or dislikes about something.
This is a sequence of assessed tasks related to a sequence of tasks associated with being on holiday. The precise order of activities is left to the teacher or learner.

**SCENARIO: ON HOLIDAY**

**DOMAIN**
- Personal Public
- Public

**CONTEXT**
- Places: airports, hotels, shops, restaurants, public transport, entertainment
- People: officials, hotel/shop & other personnel, other travellers/holidaymakers

**TASKS**
- Getting information to book a trip
- Travelling
- Contracting and using services (e.g. hire & pick up car, check in at hotel)
- Finding your way
- Socializing

**ACTIVITIES**
- Listening to announcements & instructions
- Reading instructions for information & orientation
- Spoken Production
- Spoken Interaction
- Written Production

**TEXTS**
- Sustained monologue description
- Transactions, conversations
- Forms, postcards
- Notices, instructions, brochures

**LEVEL**
- A1

**COMPETENCES**

**STRATEGIC**
- Establish contact with people using simple words, phrases and gestures
- Ask someone to repeat what they said more slowly
- Invite help with gesture when you don’t know the word

**PRAGMATIC**
- Functional
- Understanding and using numbers
- Understanding and using prices
- Greetings
- Giving personal information
- Understanding simple directions and instructions

**LINGUISTIC**
- Grammatical
- Simple verb forms
- Questions
- Present simple
- I’d like
- Prepositions and prepositional phrases

- Lexical
- Nationalities and countries
- Personal information
- Things in the town, shops and shopping

**EXPERIMENT**

**COMPETENCE**
- Understanding & using numbers
- Understanding & using prices

**ACTIVITY**
- Teacher presentation and controlled practice using appropriate course book or other available materials

**ASSESSMENT**
- Sequence of short role plays

---

**Susan Sheehan**
**SCENARIO IMPLEMENTATION**

The educational context is an intensive course in a region where the language is spoken. Activities are presented in a possible order; however, other sequencing is clearly possible.

### A2

</tbody>
</table>

Possible teaching sequence, envisaged as extending over a number of lessons though could be compressed / reduced:

1. Introduction of topic – introducing message board/blog posting – identifying key lexis – finding appropriate site – analysing discourse features – analysing language features
2. Lexis and grammar – working on lexis and structure
3. Reading skills – text comprehension work
4. Writing skills – writing accurately and fluently – managing interaction
5. Extension and report – extending language work into the real world and reporting back (note: activities labelled 5 above could be alternatives for an extension activity or could complement each other, perhaps being used at different stages of the teaching sequence)

* From the CEFR. Portfolio or school’s adapted descriptors might be used. Overview & Implementation: Howard Smith
SCENARIO: START UP

<table>
<thead>
<tr>
<th>LEVEL</th>
<th>CAN-DO?</th>
<th>TEXTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>B2</td>
<td>Can give a clear, prepared presentation, giving reasons in support of a product and giving the advantages and disadvantages of various options. Can take a series of follow up questions with a degree of fluency and spontaneity which pose no strain for either him/herself or the audience. Can account for and sustain own opinions by providing relevant explanations, arguments and comments.</td>
<td>Sustained monologue and Q and A</td>
</tr>
</tbody>
</table>

**COMPETENCES**

- **Strategic**: Plan what is to be said and the means to say it, considering the effect on the recipient/s. Use circumlocution and paraphrase to cover gaps in vocabulary and structure. Use stock phrases (e.g., “That’s a difficult question to answer”) to gain time whilst formulating what to say. Follow up what people say, relating contribution to those of others.

- **Pragmatic**: Functional: Discourse, Explaining a rationale, Developing an argument, Giving precise information, Responding to counterarguments, Synthesising, evaluating information, Persuading.

- **Linguistic**: Grammatical: Complex sentences, Summarising your case, Connecting words expressing cause and effect, contrast, etc.

- **Lexical**: Various collocations, Giving emphasis, Intonation patterns.

---

**SCENARIO IMPLEMENTATION**

This scenario can be implemented in at least 3 ways leading up to one of the following:

1. **Classroom activity**: Simulating the popular television programme Dragon’s Den. Each person/team presents their idea to the rest of the class who take the role of the panel of experts/investors.
2. **Assessment task**: A dossier and/or presentation to a panel of examiners e.g. the school’s centre manager, academic manager and a teacher.
3. **Real task**: Entering a competition to win some real money to realise the project. This is often done in sixth form or business colleges.

The enabling activities below are presented in the order in which they were transformed. The teaching sequence will depend on the context. For the competition/assessment task there may be no teaching involved. The students might receive some limited support or advice in a tutorial or two with their teacher.

**COMPETENCES**

- **Strategic**: Structuring an argument, using stock phrases to gain time.
- **Linguistic**: collocation of intensifiers.
- **Linguistic / phonological**: giving emphasis, intonation patterns.
- **Pragmatic**: summarising, synthesising, evaluating.
- **Linguistic complex sentences, complex noun phrases**.
- **Linguistic passives review, connecting words to express cause and effect/sequencing**.
- **Pragmatic persuading, giving precise information**.
- **Linguistic conditionals review, collocation of intensifiers**.

---

### MATERIALS

- **Authentic listening to an extract from a persuasive broadcast, e.g. a talk in the evening news**.
- **TV programme/course book**.
- **Classroom materials for self-study**.
- **Research on internet, e.g. a US patents website**.
- **Research an internet, e.g. a US business news article on business, finance, a particular product/innovation**.
- **Discourse**.

---

### TEXTS

- **Q and A**.
- **Sustained monologue**.
- **Sustained monologue and Q and A**.
### Scenario: Research

**Domain: Educational**  
- Location: University / College  
- Persons: Tutors / Lecturers / Researchers / Fellow students

**Tasks**  
- Plan research  
- Collect data  
- Produce academic paper

**Activities**  
- Listening as a member of a live audience (lectures)  
- Taking & making notes  
- Reading for information and argument  
- Writing an essay

**Criteria**  
- **Accuracy:** Consistently maintains a high degree of grammatical accuracy; errors are rare and difficult to spot. Spelling is accurate, apart from occasional slips of the pen.  
- **Cohesion:** Can produce clear, well-structured texts, showing controlled use of organisational patterns, connectors and cohesive devices. Layout, paragraphing and punctuation are consistent and helpful.  
- **Range:** Can select an appropriate formulation from a broad range of language to express herself / himself clearly, without having to restrict what she / he wants to say.  
- **Precision:** Can pass on detailed information reliably. Can qualify opinions and restrict what she / he wants to say.

**Level: C1**

**Can-Dos**
- Can follow most lectures with relative ease, even when not clearly structured and when relationships are only implied and not signified explicitly.
- Can take detailed notes during a lecture on topics in his / her field of interest, recording the information so accurately and so close to the original that the notes could also be useful to other people.
- Can understand in detail lengthy, complex texts likely to be encountered in academic life, identifying finer points of detail including attitudes and implied as well as stated opinion, provided he / she can read difficult sections.
- Can summarise long, demanding texts. Can write clear, well-structured texts of complex subjects, underlying the relevant salient issues, integrating sub-themes, developing particular points expanding and supporting points of view at some length with subsidiary points, reasons and relevant examples, and rounding off with an appropriate conclusion.

**Competences**

<table>
<thead>
<tr>
<th>Socio-cultural</th>
<th>Knowledge of scientific contents</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sociolinguistic</td>
<td>Conventions of format &amp; style of academic genres</td>
</tr>
<tr>

### Discourse Functions
- Initiating and closing conversation
- Checking understanding
- Managing interaction (interrupting, changing topic, resuming or continuing)
- Taking the initiative in interaction
- Encouraging and inviting another speaker to continue, come in
- Interacting informally, reacting, expressing interest, sympathy, surprise

### Discourse Markers
- Connecting words, and, but, because
  - Linkers: sequential - past time: first, finally, subsequently
- Connecting words expressing cause and effect, contrast etc:
  - Linkers: although, in spite of, despite
- Linking devices: logical markers
  - Markers to structure informal spoken discourse
    - Discourse markers to structure informal speech
      - Markers to structure and signpost informal and formal speech and writing

### Simple Verb Forms
- To be
- Present Perfect Continuous
- Past Perfect Continuous
- Future Perfect Continuous
- Have got (British)

#### Content

- **2 Functions/notions**
- **3 Understanding and Using Numbers**
  - We have three cats and one dog.
  - My father is 45 years old.
  - There are 500 people in our village.
- **4 Understanding and Using Prices**
  - How much does the room cost? 45 Euros per night.
  - The train ticket to York is 7 pounds 50 (pence).
  - I spend about 50 dollars a day.
- **5 Telling the time**
  - What’s the time? A quarter to seven.
  - Do you have the time please?
  - Can you tell me the time, please?
  - It's 9.45. (nine forty-five)
- **6 Directions**
  - The hotel is on the left.
  - Go to the end of the street and turn right.
  - Where is the supermarket? It's straight ahead.
- **7 Greetings**
  - Hi John, how are you today?
  - Good evening, Mr. Jones.
  - This is Mary. Pleased to meet you.
- **8 Giving personal information**
  - My name is Carlos.
  - I am from the north of China.
  - I live in Beirut.
  - I have two sisters and one brother.
- **9 Describing habit and routines**
  - My brother goes to work at 8 o’clock.
  - I get the bus to college every day.
  - I always go swimming on Tuesdays.
- **46 Discourse markers**
  - She lives in Switzerland and she goes skiing a lot.
  - I don’t like Indian food but I like Chinese.
  - I go to bed early because my job starts at 7.00.
- **55 Verb forms**
  - We are from South America.
  - No I’m not tired.
  - France is a wonderful country.
  - I am a psychology student.
  - Are you French? No I’m not.
- **57 Have got (British)**
  - Have you got any money?
  - I’ve got all of his CDs.
  - We’ve got lots of time.
63 Present
64 Present simple
- She eats fruit every day.
- We go to the beach on Sundays.
- They live near Edinburgh.
65 Present continuous
- Ibrahim is studying medicine at Bristol University.
- John’s working in France now.
- It’s raining again.
66 Past
67 Past simple
- After the meal we went to a club.
- She fell and broke her leg.
- I lived in Paris for 6 months.
68 Past simple (to be)
- It was very good.
- I moved to Madrid when I was 15.
- We were happy there.
73 Future
74 Going to
- We are going to make a pizza this evening.
- They’re going to visit London tomorrow.
- Are you going to study this weekend?
85 I’d like
- I’d like a cup of coffee.
- I’d like to go home.
86 Verb + -ing like/hate/love
- I love swimming.
- I don’t like waiting for buses.
- I like sitting in the sun and doing nothing.
103 Modals
104 Can/can’t (ability)
- I can’t swim.
- He can speak Spanish, French and Italian.
- She can play chess.
105 Can/could (functional)
- Can/could I use your phone?
- Can/could I have a return?
- Can I help?
121 Nouns
- How much/many and very common countable and uncountable
- How much money do you have?
- How many sisters do you have?
- Do you like cheese?
- I bought an apple and some bread.
- Mira has very short hair.
123 There is/there are
- There’s a bank near the station.
- There are a lot of seats at the front.
- Is there a supermarket near here?
124 Pronouns
125 Simple personal
- I bought a dictionary.
- They live in Newcastle.
- Sorry, I dropped it.
126 Possessives
127 Possessive adjectives
- This is my seat.
- Is this your pen?
- That’s our house.
128 Possessive ‘s
- It’s Mary’s turn to buy coffee.
- The girl’s hair was bright red.
- This is the students’ room.
129 Possessive pronouns
- This is my laptop.
- That is her coat.
- No, it’s mine.
- Is that their car?
130 Prepositions and prepositional phrases
131 Prepositions, common
- He is sitting at the table.
- We went to Sardinia last year.
- He comes from Scotland
132 Prepositional phrases (time and movement)
- The holidays begin in July.
- They like to play football in the evening.
- On Tuesdays she goes to college.
133a Prepositions of place
- Our shop is on the High Street.
- They live in Reading.
133a Prepositions of time, including in/on/at
- I’ll see you in December.
They live in Brighton.
He is a student.
Where is the train station?
I want to buy a phone.
Does this bus go to the town centre?
I'm looking for a bank/chemist.
Where can I buy a . . . ?
Where is the nearest internet café?
How much does this cost?
Where is the supermarket?
I don't like fish.
I have a cup of tea every morning.
What kind of coffee do you want?
Vegetables are good for you.
I like fresh fruit for breakfast.
He's an engineer.
in a bank.
I am 26 years old, single and I work
She's married and has three children.
is English.
She comes from China but her husband
Pedro is Spanish but he works in France.
John is a really good friend.
She's a very tall girl.

I drive
I usually fly to France, but sometimes
the train
My friends get the bus to work but I take
Scottish mountains are not very high
It's a long street
My favourite colours are red and green.
He always wears black.
The houses near the sea are all blue
or pink.

My room is very small.
It's a long street.
Scottish mountains are not very high.

My friends get the bus to work but I take
the train.
I usually fly to France, but sometimes
I drive.

It's green and it's made of plastic.
It's small, round and made of rubber.

Can you give me that book, please?
Can you give me that book, please?
It's green and it's made of plastic.

Mary has long blonde hair.
Ekaterina is tall and slim.
Marco has blue eyes.
every Tuesday.
The director comes to our office
I phone my family at the weekend.
On Sundays I visit my mother.
I phone my family at the weekend.
We must hurry. We are late.

We are meeting John at 8 o'clock
Shall I carry your bag?
Can I help you?
Do you fancy going to the club tonight?
You should ask the teacher.
You could try the Internet

- That’s just what I was thinking.

32 Expressing reaction, e.g. indifference
- Why ask me?
- Thank goodness

33 Critiquing and reviewing
- I think that ‘Treasure Island’ is still popular with children even though the language is rather dated.
- The film was a bit disappointing, really.

34 Developing an argument
- In spite of its popularity I feel that ‘The Beach’ is a very overrated book which appeals mainly to gap-year students.

In academic discourse style:
- One reason why...
- Another argument for/against... is...

39 Discourse Functions
41 Checking understanding
- From speaker’s point of view
- Are you following me?
Let me know if you have any questions?
Does that make sense?
From listener's point of view
If I understood you correctly, there are no planes at all on Saturday.
Do you mean I can't talk to the boss right now?
Are you trying to tell me you don't want to go out with me anymore?
Let me see whether I've understood you correctly.
So what you're really saying is . . .
Am I right in assuming . . .

42 Managing interaction (interrupting, changing topic, resuming or continuing)
Interrupting
Actually, . . .
I'm sorry but . . .
Just a minute!
Yes, I know, but . . .
Hang on!
Hold on!
Changing the topic
Oh, by the way . . .
That reminds me . . .
This has nothing to do with what we are talking about but . . .
On another subject . . .
Talking about holidays, did you know that I'm off to Florida next week?
Before I forget . . .
Resuming
Anyway, I was telling you about John's party . . .
To get back to what I was saying . . .

43 Taking the initiative in interaction
Control and delegation at start
Andre, would you like begin?

Pilar, would you like to kick off?
Shall we begin?
During the meeting
Jenny, can tell us how the Human Resources reorganisation is coming along?
How does that affect your department, Ross?
Let's move on, shall we?

Keeping interaction participants on topic
We don't have time to go into that matter right now.
Let's get back to the issue under discussion, shall we?
That's another topic, really.
Can we keep to the point, please.
Let's not get distracted.
Taking initiative in non-control situation
I'd like to say a few words here.
Yes, I think I can contribute to this point.
My expertise in this area might help to clarify the situation.
Perhaps I could say something here.

44 Encouraging and inviting another speaker to continue, come in.
To continue
Carry on.
Go on.
Really?
Mmm...mnm...
Don't stop.
Tell me more . . .
What makes you say that?
What makes you think that?
I'm all ears.
I'm listening.

Invitation in one-to-one interaction
Don't you agree?
Is that okay with you?
How about you?
What do you reckon/think?

Invitation in group interaction
What do you think, Mario?
Let's hear what Gabriella has to say.
James might have something to say on this.
Fiona knows a lot about this.
Hey, did something like that, didn't you?

45 Interacting informally, reacting, expressing interest, sympathy, surprise
Wow, that's fantastic.
Really? Tell me more.
Tell me all about it.
I don't believe it!
Oh wow!
Oh you poor thing.
That's awful. What a shame!

46 Discourse Markers
48 Linkers: sequential – past time (subsequently)
Subsequently, he went on to be one of our best salesmen.
Following this he decided to leave the country.

49 Connecting words expressing cause and effect, contrast etc.
I know it would be good fun to watch the late-night film. Nevertheless, I think we should all get an early night before the big event tomorrow.
I would like to tell you more. However, that is as much as I am allowed to reveal at this time.

Consequently, he moved to London to be closer to his family.

50 Linkers: although, in spite of, despite
In spite of her illness during the course, she managed to qualify successfully.

53 Discourse markers to structure formal speech
To begin, I would like to introduce my colleagues.

55 Verb forms
67 Simple past (narrative)
To help pay for his keep and to help his family, Andrew, who was still only 15 years old, began working ten-hour days at a Kensington hotel washing dishes and cleaning the kitchen. He earned just 6 pounds per week. The harsh working conditions and the cruelty of the kitchen staff had a strong influence on his later political outlook, and informed his work when he began his literary career, particularly the novel that made him famous, Working Boy.
Can you come another time?

I'll be visiting my mum on Thursday.

in Japan and earning good money.

This time next year, I'll be working
going to be late after all.

Here comes the bus now. We aren't

You will succeed where I have failed.

Michael felt completely devastated.
Somebody had deliberately sabotaged his research but he did not know who could do such a thing.
When I reached the summit of the mountain I felt a great burden had been lifted from my shoulders. My childhood dream had finally come true. Looking down into the valleys far below I felt a sense of pride in my achievement. I wanted to shout out loud from the top of the world.

25 Expressing certainty, probability, doubt
It is highly likely that the airport will be closed again tomorrow.
No doubt he’ll bring his dog as usual.
There’s bound to be trouble at the meeting.
Is that settled, then? Yes, it’s settled.
It looks as if she’s going to be late.
Surely, you don’t think it was my fault?

27 Synthesizing, evaluating, glossing information
In a nutshell, it was the headmaster who had to take responsibility.
To cut a long story short, he ended up sleeping on my floor.
All things considered, I think we’ve made the best decision.
Another way of putting this would be to say . . .
To recap on what has been said so far, . . .

28 Speculating and hypothesising about causes, consequences etc.
Supposing he had missed his train?
If the pound did drop to parity with the euro, Britain might be better off in the long run.
Well if we don’t do something about the oil spill, there could be a lot more fallout than just dead fish. I mean, the water could be polluted for decades.
If you’d arrived on time, we would probably have missed the traffic.
If she didn’t get so excited, she might get more work done.

29 Expressing opinions tentatively, hedging
I assume you’ll be going home for Christmas.
Am I right to think you’re responsible?
It’s supposed to be good.
I’m just not so sure, it could be okay.
Maybe she is the best person for the job.
I should think he’ll be delighted with the surprise.
It could well be the best solution.
30 Expressing shades of opinion and certainty
- There’s no doubt about the fact that there is going to be inflation.
- No, I’m absolutely sure. I mean look at the figure for X.
- I may be wrong, but I think higher inflation is almost certain.
- I have a feeling there may be a problem here.
- I suppose that could be an option.
- I rather doubt that he’ll come.
- It’s not something I feel strongly about
- Well one option/possibility might be to go earlier.
- I really think that the people who produce our food should not be exploited. But the problem is that sometimes fair trade goods are more than double the price.
- It’s not something I feel strongly about
- Absolutely!
- I don’t believe it.
- That’s amazing!
- Oh, you poor thing.
- You can say that again!

33 Critiquing and reviewing
- The (report) highlights some important issues but it does not, to my mind, get to the bottom of the problem.
- It’s an excellent summary, but I think it would be improved by a deeper consideration of X.
- The (report) sets out to do X, and it does parts of this well, but it seems to me to lack . . .
- The good/best thing about (the report) is that it is so concise. It really hits the nail on the head.
- Well, it starts well, but then after x pages/ in the section on X, I had the impression that it . . .
- The plot involves the disappearance of a sacred sword and introduces us to various levels of castle intrigue. Stephenson weaves his usual magic by giving us snippets of information here and there, now from the royal chambers, now from the castle kitchens. The master of gothic science fiction has provided us with a real page-turner. The only criticism that might be levelled here is that the author assumes that the reader is already familiar with characters and the world they inhabit. To get the most out of this book one needs to have read the previous books in the series.

32 Expressing reaction, e.g. indifference
- To be honest, I simply don’t care.
- Why bother?
- It’s not such a big issue.
- I don’t really mind/have an opinion, one way or the other.
- What are you trying to say?
- Absolutely!
- I don’t believe it.
- That’s amazing!
- Oh, you poor thing.
- You can say that again!

34 Developing an argument systematically
- It is frequently argued that . . . , however
- X is clearly a topic of concern to many people nowadays
- There are several reasons for this: one . . . two . . . , and finally . . .
- The main reason for this . . . is/may be . . .
- Some people might argue that . . .
- However . . .
- Opponents of this idea try to suggest that . . . However . . .
- It’s clear that . . .
- No one would dispute that . . .
- It is generally accepted that . . .
- All the evidence/data indicates/suggests that . . .
- Thus to conclude, the central issues are . . . /the key point is . . .
- In conclusion, before we . . . we need to . . .

35 Conceding a point
- I see what you mean, but . . .
- I take your point. I agree we need . . ./ it’s certainly true that . . .
- I have to admit that . . .
- It’s true that . . .
- Though I hate to say it, I think you are right that . . .
- That may be true, but . . .

36 Emphasizing a point, feeling, issue
- The main point I’d like to emphasize here is that parents have an important role to play in a child’s education
- 75% of those interviewed said that public transport was not as safe. Yes, 75% think public transport is now more dangerous.
- After turning the whole house upside-down, the police found nothing. Absolutely nothing.
- There is no evidence to show that . . .
- I still think . . .
- Whilst it may indeed be true that . . . , I still think . . .
- You may be right, but I still think that . . .
- All the same, she deserves another chance.
- Opponents of this idea try to suggest that . . . However . . .
- In conclusion, before we . . . we need to . . .
- It’s clear that . . .
- No one would dispute that . . .
- It is generally accepted that . . .
- All the evidence/data indicates/suggests that . . .
- Thus to conclude, the central issues are . . . /the key point is . . .
- In conclusion, before we . . . we need to . . .

37 Defending a point of view persuasively
- I know this may not be a popular conclusion, but it seems to me we have to face (facts/ the fact that . . .)
- I do appreciate that what I proposed may be expensive/painful/a surprise to some people, but I really am convinced the evidence shows we need to . . .
- I recognise that this may . . . but . . .
- But one should not lose sight of the fact that . . .
- But surely one still needs to take X into account

38 Responding to counterarguments
- What you say may be true in some contexts, however in this case . . .
- You may be right, but I still think that . . .
- Even so, he still has a long way to go before he is suitable management material.
- You may be right, but I still think that . . .
- All the evidence/data indicates/suggests that . . .
- Thus to conclude, the central issues are . . . /the key point is . . .
- In conclusion, before we . . . we need to . . .
- No one would dispute that . . .
- I do appreciate that what I proposed may be expensive/painful/a surprise to some people, but I really am convinced the evidence shows we need to . . .
- I recognise that this may . . . but . . .
- But one should not lose sight of the fact that . . .
- But surely one still needs to take X into account
46 Discourse Markers

54a Markers to structure and signpost informal speech and writing
- We’ve a bit more money coming in than we had last year. Mind you, we’ll still need to be careful with the heating bills.
- He’d spent all his money without realising. So, he couldn’t afford a taxi and had to walk home.
- Then guess what happened?
- On top of that his girlfriend was really angry with him.

54b Markers to structure and signpost formal speech and writing—especially logical markers
- The pound is not as strong as it was two years ago. Moreover, the cost of flights has gone up . . .
- Profits are likely to fall this year. Consequently, we need to prepare our shareholders for some bad news.
- He was warned many times about the dangers of mountain climbing in winter. Nevertheless, he continued to tackle some of the toughest peaks.
- Despite the clear danger that was pointed out to him, he insisted on continuing so he is at least partly responsible for what happened.
- The cost of fuel has gone up. Therefore it is hardly surprising that there has been an increase in the use of public transport.
- Whereas that is the case in Brazil, in Columbia it is more a question of . . .
- Certainly the car is here to stay, but the question is to what extent it will be the same concept of car.
- The policy was correct is so far as it was applied; the problem is that it wasn’t applied systematically.

55 Verb forms

66 Narrative tenses for experiences, including passive

67 Simple past (narrative)
- I went home that evening in a very sombre mood. I tried to relax. I made myself a cup of coffee and turned on the television. But I just could not get the incident out of my mind. The more I thought about things, the more certain I was that something just didn’t make sense. I decided to go back over everything the next day.

68 Past continuous (narrative)
- They were late as usual, hoping the guests would be a little late. Miriam was still in the kitchen preparing enormous bowls of salad. Her father was tidying away all his papers which were usually scattered over every available space in the dining room. John was keeping a lookout at the front gate, kicking pebbles along the path.

69 Used to (narrative)
- That bit of the coastline used to be much less busy than it is these days. Lisa and her brothers loved exploring the coves and beaches for miles in both directions. They used to get up really early, run down the rocky path that led to Shell Bay and go for a swim before breakfast. Yes, those days were fun.
- I had a proper tricycle when I was a small child. It had a boot and I used to keep all sorts of toys in it. We used to go all over the place, using the trike as a mobile base.

70 Would expressing habit in the past (narrative)
- My grandmother used to live by the seaside and we would go there every Easter. My Dad would drive, my mother would navigate and we would sit in the back fighting.
- In the summer we went to Devon for years. My Dad would ask us to navigate. It was a way of keeping us quiet. We would watch out for named pubs and read the road signs. Usually we counted cars too. I would count VWs; my more sophisticated brother counted Jags. I would usually win.

71 Past perfect (narrative)
- When he returned to the UK things were very different. Maria had given up her job in the library and gone back to university. Reza had finally left home and had moved in with a rather odd group of postgrads who had very strict house rules about everything from the storage of food to when guests were allowed to visit. Brigitte seemed to have completely disappeared. Just six months before they had been inseparable. Although he had known that it couldn’t last, it surprised him just how quickly things had changed.

72 Past perfect continuous (narrative)
- Whoever it had been must have had a key. So if his parents had been visiting their friends in Lyon, and his sister had been out celebrating the end of term with her boyfriend, then there was only one person who would have been able to get into the house that night.

76 Futures (revision)
- My brother and his girlfriend are getting married in August. They’re not going to go on honeymoon. They’re going to do up the flat they bought with the money they’ll save. They’ll probably have some kind of reception or party for the wedding but I don’t think it will be a very grand affair.
- Oh no. Another goal for United! Barça is going to lose.
- I just got a phone call from Raoul. He’s in a taxi. He’s going to get here in about five minutes.

This time next year I’ll be sun bathing on my yacht in Antibes. I’ll be mixing with celebrities from all over the world. I’ll be driving a look-at-me car and going to fancy restaurants.
- At the speed things are moving, the case will have expired before it is brought to court.
- At the end of next year, I’ll have been working here for 5 years!

89 Conditionals

92 Mixed conditionals in the past, present and future
- If she had taken her studies more seriously last year, she’d have more job opportunities now.
- If Lola had given me the information earlier, she’d be coming with us on holiday.
- If I were rich, I would have bought that painting we saw yesterday.
- If Nareene didn’t come with us to Glastonbury, everyone would be disappointed.

93 Wish/if only & regrets
- I wish I’d studied a bit harder.
- You wish you’d kept your mouth shut, don’t you?
- If only he’d take more care of his health.
- If only I had behaved a bit better, she might have given me a chance.
- If only the sun would come out!

94 Phrasal Verbs

96 Extended phrasal verbs (splitting)
- The policeman broke the fight up very quickly.
- She talked me into going to her parents’ place for the weekend.
- I can’t make anything out; it’s really dark.
- She knew that her mother had put John up to it.
97 Passives
99 Passive forms, all
- He’ll be given a warning.
- You’ll be being transferred to your new job tomorrow.
- The seats will all have been taken by the time we get there!
- He’s going to be given an award.
- He ought to be sacked for behaviour like that.
- Having been beaten so many times, he decided to fight back.
- He might have been hurt.

118 Modals in the past
- You shouldn’t have told her.
- She’ll be very upset.
- I should have warned him about the traffic, but I forgot.
- You might have told me it was her birthday. I felt embarrassed I didn’t take a present.
- He can’t have got my message. He would never be this late.
- You needn’t have bought any potatoes. We had some.
- I don’t think anyone could have done anything. He had decided.
- Things might have turned out differently, if she had asked first.

151 Adverbs
159 Inversion (negative adverbials)
- Little did I know that he had already left the company.

166 Lexis
181 Collocations, e.g.
- It’s there in black and white.
- He was in excruciating pain.
- The suspense is palpable.
- I did physics at university.
- The situation is untenable.
- It’s a no go area.

182 Colloquial language, e.g.
- I am absolutely knackered.
- She was gobsmacked when he turned up at the party.
- The whole thing was a cock-up from beginning to end.
- He tried to flog me an old banger.

183 Approximating (vague language), e.g.
- There will be about 30 odd people – well 30 to 40.
- I think he’s an accountant or something like that.
- The book is sort of similar to his first one.
- Can you pass me the thingummyjig for taking nails out?
- All the painting stuff is in the garage.

184 Differentiated use of vocabulary, e.g.
- She was really upset when she failed her exams. I think she is still in shock.
- It’s not that I don’t like her; I detest her.
- It’s really good. It’s concise, focused, readable.
- I wouldn’t say she’s antisocial, just a bit shy.
- It wasn’t bad, just a bit disappointing.

186 Eliminating false friends, e.g.
- In the chemistry class they performed an interesting experiment (as opposed to experience which is French for experiment)
- Different languages = different false friends

187 Formal and informal registers, e.g.
- Mr. John Wilson passed away peacefully at his home in Nottingham last week.
- John Wilson died in his sleep last week.
- John kicked the bucket a few days back.

188 Idiomatic expressions, e.g.
- I wish I could remember her name. It’s on the tip of my tongue.
- Everybody wants work with Marion. She really is the flavour of the month.
- If you want a shoulder to cry on, I’ll always be here for you.
